Re: 28 New Positive COVID-19 Test Results in Hunt County

28 new positive test results for COVID-19 have been reported in Hunt County. The Hunt County Health Department completed an initial investigation and determined that the individuals in question reside in Hunt County. The general information for the 28 new patients is in the chart below.

In addition, Tracked Case 392 has now been discharged from the hospital. Numbers of hospitalized residents will be included in the morning report.

Because three of the earlier Tracked Cases were either outside of the County or tested negative, there have been a total of 392 positive cases of Hunt County residents to date.

Each morning, the County will release and post on its website a new set of numbers and charts showing the total number of cases, including the status and ZIP Codes of those cases. The state’s website includes a map which may be accessed at [“dshs.state.tx.us/coronavirus”](https://dshs.state.tx.us/coronavirus) by clicking on the “Texas Case Counts” link.

- “RAH” means “Recovering at Home”
- “HOSP” means “Hospitalized”
