Directory Last Updated on 01/29/2023

This information is updated periodically. Some locations may not provide services for eye exams, or for eyeglasses, or contact lenses. Full details can be requested at the location prior to service.

MetLife's goal is to establish consistency in the selection and retention of providers in its networks. The decision to accept or retain a provider an applicant is based on all available information, including, but not limited to, information contained on the application and obtained through re-evaluation processes, such as licensure, malpractice or sanctions history.

MetLife defines access to care as the ability of the enrollee to select a contracting vision care provider who is located within a reasonable proximity to the enrollee's residence or work place. MetLife considers maximum drive time of thirty (30) minutes with allowances for natural barriers, (rivers, mountains, traffic patterns, etc.) or twenty five (25) miles for routine vision care.

The critical indicators used to determine network requirements are the number of employer groups in the area, the ratio of enrollees per vision care provider and the employee's access to care.

Responsibility for the approval of provider applicants to join the MetLife Vision Program rests with the Credentialing Committee.

Any provider included in this directory is listed for outpatient services. In addition, the directory includes information regarding whether the provider is currently accepting new patients.

The information contained in this provider directory is supplied by the individual provider and is subject to regular audits.

VSP recredentials doctors within thirty-six (36) months of the prior credentialing date^[i] in accordance with state and federal requirements and NCQA guidelines.

[i] Virginia state regulations require recredentialing within 3 years of the day (date) of the prior credential.

To report an inaccuracy on this list, contact MetLife Vision at 1-855-MET-EYE1 or directory@mymetlifevision.com.
