13 new positive test results for COVID-19 have been reported in Hunt County. The Hunt County Health Department completed an initial investigation and determined that the individuals in question reside in Hunt County. The general information for the 13 new patients is as follows:

In addition, Tracked Case 182 have now been hospitalized, and Tracked Cases 123 and 150 have now been discharged from hospital.

A total of nine Hunt County residents are now hospitalized. Because three of the earlier Tracked Cases were either outside of the County or tested negative, there have been a total of 258 positive cases of Hunt County residents to date.

The 13 cases **do not include** the 25 positive results from the assisted living facility reported Wednesday night.

Each morning, the County will release and post on its website a new set of numbers and charts showing the total number of cases, including the status and ZIP Codes of those cases. The state's website includes a map which may be accessed at "dshs.state.tx.us/coronavirus" by clicking on the "Texas Case Counts" link.
